WEB**CP** DOOR CONFIGURATOR

WebCP Online Door Quote and Order Program is our full quoting, configuration, and ordering experience exclusively for Therma-Tru® doors built by Parksite. WebCP is available with 24/7 access through your web browser on any device.

To sign up, contact your Parksite Representative.

WEB BASED PLATFORM
24/7 access though your web browser. Use your desktop, laptop, tablet, or phone!

CONFIGURATION
User-friendly click format. Configure doors right on the quote! *NEW!* Configure doors direct from Therma-Tru base Style numbers.

QUOTING
Create new or edit existing quotes quickly. Email, download or print paperwork to share with clients.

ORDERS
Create and send orders or convert a quote to an order with a click. Attach related documents to submit with an order. Search past orders.

ACCOUNT CUSTOMIZATION
We can add your markups or hide components based on your requirements.

A Complete Door System

Engineered to work together.

A Therma-Tru® door system with genuine Therma-Tru components is engineered with craftsman precision to help provide weather resistance and energy efficiency. So when a homeowner chooses a complete Therma-Tru door system, you can be confident it will perform as exceptionally as it looks.

Therma-Tru specifies all of the components to work together at the most critical points where an ordinary door system's performance can fail, letting in air and moisture.

LIFETIME LIMITED WARRANTY
TRANSFERABLE

LIFETIME LIMITED WARRANTY
ENERGY STAR PARTNER

1 Composite Door Frame

A Therma-Tru composite door frame featuring Tru-Guard™ composite technology provides a rot-free solution engineered to work together with rot-resistant Therma-Tru doors and components.
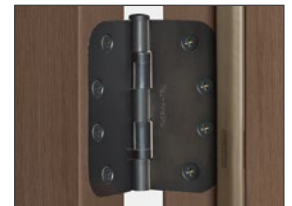

2 Removable Weatherstrip

Our resilient design compresses when closed and springs back when open. It's protected by a durable jacket for long-lasting sealing power.
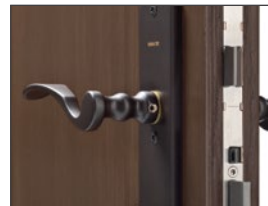

3 Hardware

Choose from beautiful options that will complement the look of your home and help bring you security and peace of mind.

4 Ball-Bearing Hinges

Hinges with ball-bearings protect each hinge pivot, offering added support and stability to help keep your door opening and closing smoothly.

5 7-Shape Corner Seal Pads

(Inswing Only) This innovative design creates a protective air pocket that helps prevent a vacuum from wicking moisture up the weatherstrip.

6 Composite Adjustable Sills

These allow flexibility to adjust the sill cap vertically to close gaps, helping to maintain a tight seal between the sill and the bottom of the door.

7 Dual Bulb / Dual-Fin Bottom Sweep

(Inswing Only) Two bulbs compress to sit tight against the sill, while two fins act like walls to form barriers and a built-in rain deflector pushes moisture away.

8 Mullion Options

Mullions not only give the hinges and lock a place to anchor, they come in a range of sizes. See our catalog for a full range of options available.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions, and ENERGY STAR qualified products.

3

PrismaGuard

PrismaGuard® Premium Stain

Handcrafted and professionally applied in a controlled environment, low-maintenance PrismaGuard finish preserves your door's lasting beauty and protects against normal wear and tear, saving you time and money. And it's backed by a 10-year limited finish warranty for your peace of mind.

Parksite

Lasting beauty and color.
Using specialized equipment, PrismaGuard stains and paints are tested to help deliver a consistent high-end appearance perfect for wood-grained or smooth door surfaces.

Protection from the elements.
Therma-Tru simulates exposure to harsh environments to help verify that PrismaGuard finish coating protects the door from the elements, preserving its color for years to come.

## Stain Options (Shown in Fir Grain)
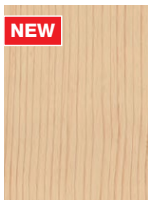

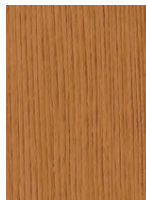

NEW Tumbleweed	Acorn	Wildflower Honey	Rustic Clay	Sweet Date	Barley	Bark
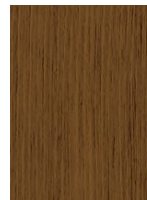

Pinecone	Rhubarb	Mulberry	Burnt Sienna	Autumn Harvest	New Earth	Driftwood
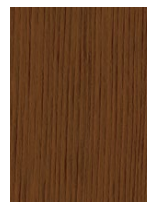

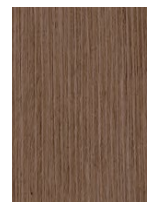

Timber	Shale	Raven

Durable Topcoat

Professional Application

Explore a nature-inspired color palette of premium stain and paint designed to enhance the overall beauty of the entry.

Contact your Parksite Sales Representative to obtain 4" x 4" samples of select PrismaGuard finish colors.

Note: Additional Prismaguard Stain colors available upon request.

PrismaGuard®

PrismaGuard® Premium Paint

Add a pop of color and tailor the look of the entry. PrismaGuard premium paint is designed with high-definition color and optimal sheen to enhance the look of smooth and wood-grained Therma-Tru® products for a beautiful lasting impression.

Parksite

Resistance against wear and tear.
PrismaGuard finish is subjected to a simulation of everyday use to provide a durable high-end, low-maintenance finish that protects the door from normal wear and tear.

Standard Paint Options

Custom paint color matching is available. Please consult with your Therma-Tru dealer for more information.

Alpine	Eggshell	Almond	Beige	Sandstone	Terratone	Estuary (NEW)	Arctic Ice (NEW)	Cypress

Golden Wheat (NEW)	Canyon (NEW)	Ruby Red	Wineberry	Cabernet	Indigo	Green	Brown	Chestnut

Bronze	Granite	Peregrine (NEW)	Elk (NEW)	Onyx	Obsidian (NEW)

Flush-Glazed Glass

Our flush-glazed designs create striking profiles that effortlessly combine indoor and outdoor living spaces, inviting in more natural light than ever. The possibilities are endless, giving you doors that perfectly fit your lifestyle.

Strength is built in.

Our doors are durable by design. Flush-glazed glass represents a trouble-free solution that provides a superior barrier against the elements, resulting in performance you can depend on.

Durable by design.

Double- or triple-pane glass is built directly into the door with a high-performance dual adhesive weather seal.

This reduces the potential for air and water infiltration, among other benefits.

Superior Sound Dampening

Doors with flush-glazed glass do a better job of dampening outside noise compared to a Lip-lite alternative.

11% More Energy-Efficient

The Low-E glass used in flush-glazed doors delivers a clear view and is 11% more energy efficient than 1/2" Low-E glass in a Lip-lite frame.*

Withstands Winds Up to 167mph

Door systems with flush-glazed glass are designed and tested to withstand wind forces up to 167 mph (DP-50).** (ASTM-E330)

Classic Craft Fir Grain, Low-E Glass with SDLs, CCA230-SDLLE / CCA3400SL

*Comparison of U-factor values of a flush-glazed full-lite door and a Lip-lite full-lite door, both with Low-E glass.
**Must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru product approval. Impact-rated products not available.

WebCP CONFIGURE BY
STYLE NUMBER
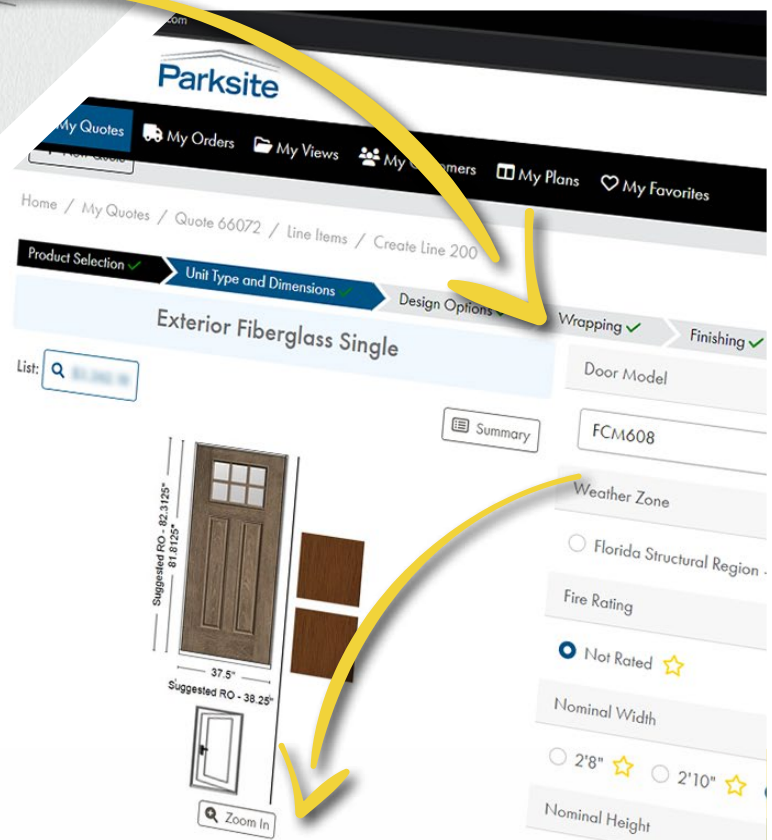

New! BUILD BY STYLE NUMBER

In addition to other graphical and usability improvements, our latest WebCP door configurator release now allows you to **build line item quotes and orders by simply entering the Therma-Tru® base style number** – making the whole configuration process easier, more accurate and saving you quality time.
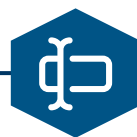

HOW IT WORKS

LOCATE
Find your desired door style number* from any Parksite or Therma-Tru® catalog or website.

LOG INTO WebCP
Start your new line item, select appropriate selection for your Fiberglass or Steel door.

ENTER BASE STYLE
Enter the door's base style number. For instance, if your selected door is FCM608-SDLLE, enter FCM608.
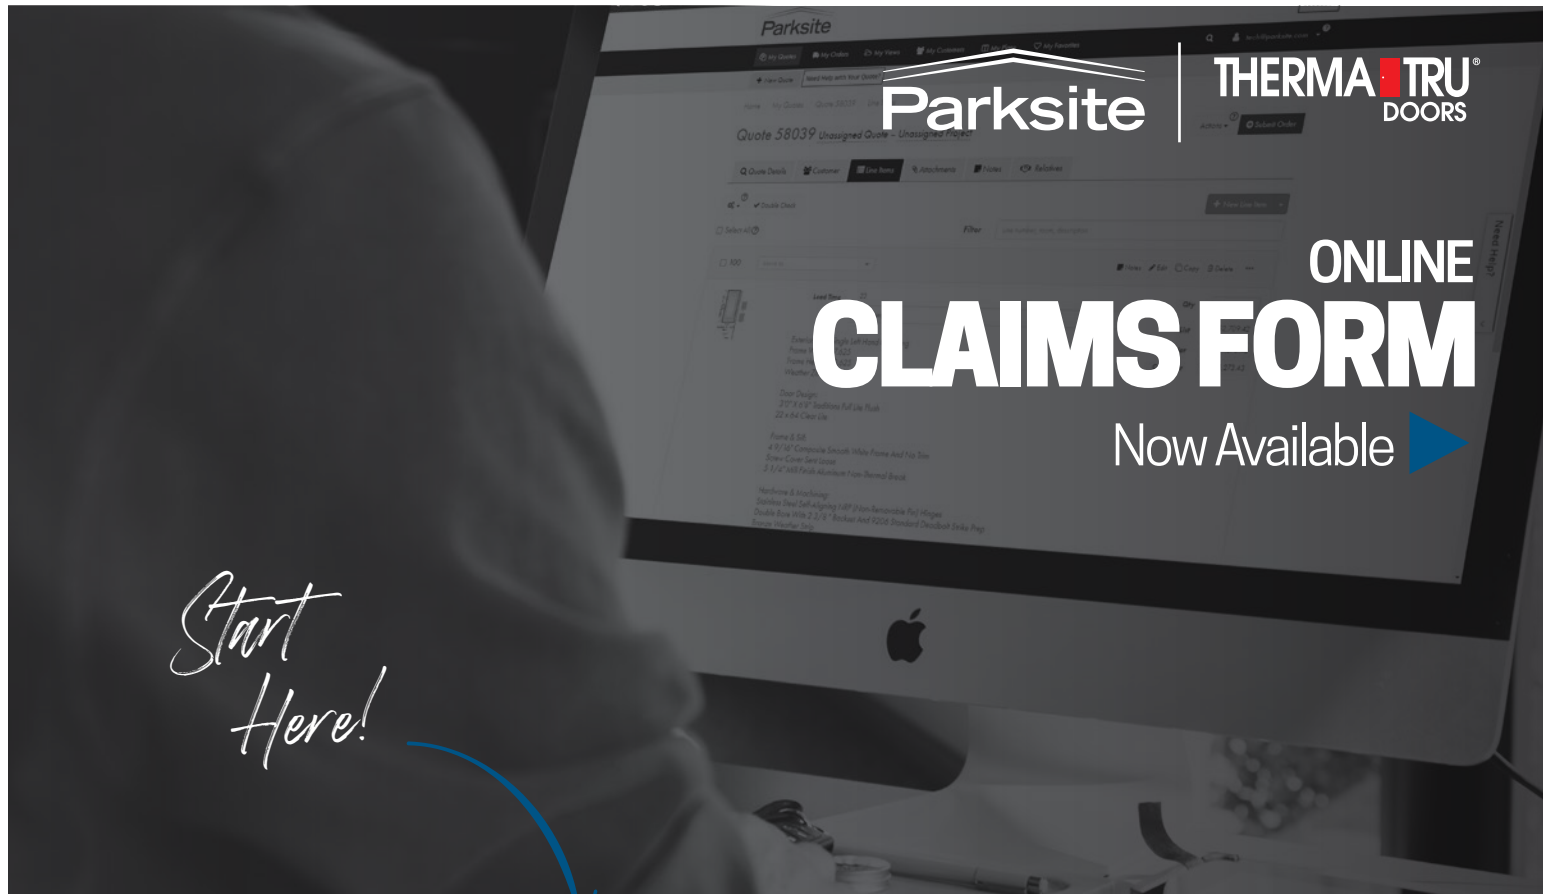

SELECT BUILD OPTIONS
Your door is already configured! Select remaining options like size, glass type, finish and hardware!

LOG IN & TRY IT NOW!

OR CONTACT YOUR PARKSITE REP FOR MORE INFO!
